INNOVEZ ENGINEERING

Products and Services

SERVICES

RENOVATE

At Innovez, we are familiar with the problems that beset an old aquatic facility – joint failures, plumbing issues, cracking and peeling. Innovez provides quality building materials and cutting-edge technologies to give your old pools and water features a new lease of life. Each renovation is a tailored solution to optimise your budgets.

ACCESSORIES

Innovez provides a wide range of accessories that includes ladders, underwater lights and lane ropes. Depending on the use of the pool, there are other more specialised options such as underwater windows, the sparger system and handicap railings.

Should you require, you can also choose to customise accessories that are specific to your needs.

BUILD

As a design-and-build pool specialist, Innovez provides a wide spectrum of capabilities that span filtration works, design and construction. Whether you require a resort-styled pool with elaborate water features, an elevated pool on top of a high-rise building or a FINA-standard competition swimming facility, Innovez is able to meet your needs.

//design vision is preserved through the use of cutting-edge technologies and inventive engineering, so designs can be better translated from paper to reality//

EQUIPMENT

For aquatic sports, Innovez provides a variety of equipment to facilitate coaching and scoring requirements. To cater to varying budgets, there is a range of options that can be mixed and matched to yield optimum benefits for your needs. So whether you are a coach at the local school or an event organiser for an international swim meet, you will likely obtain whatever you require.
