The Slim Pace Clock line offers an elegant pacing and time of day solution for your facility. The slim profile (only 2.8" deep) is perfect for displaying time of day and pacing with minimum extension from the wall of your facility. A straightforward and elegant display, the large 13" digits are easily visible from a distance.

Durability

Each pace clock is enclosed in a rugged powder-coated aluminum enclosure, and all digits and circuit boards are conformal coated to protect from harsh environments and withstand the test of time. The high gain flush mount patch antenna is mounted on an LED digit and protected by the Lexan cover to prevent breakage by errant balls and/or weather.

Integrated 2.4GHz wireless

Our slim pace clocks utilize integrated 2.4GHz wireless technology, with 12 operating channels to eliminate interference.

Time of day clock

The slim pace clocks have an integrated real time of day chip (RTC). If multiple pace clocks are used in a facility, they will synchronize the time automatically.

The Slim Pace Clocks are available with 4- or 6- LED digits. The 4-digit clock displays hours and minutes or minutes and seconds. The 6-digit clock displays hours, minutes and seconds.

Slim Pace Clocks

Specifications:

4-digit Slim Pace Clock:

Part #:	SP-1400 (red digits) / SP-1401 (amber digits)
Overall size (W x H x D):	3.52' x 1.6' x 2.8" (107.3cm x 48.9cm x 7.1cm)
Weight:	15 lbs (6.8 kg)
Digit Sizes:	13" (33 cm)
Power:	120/240 VAC, autosensing

6-digit Slim Pace Clock:

Part #:	SP-1600 (red digits) / SP-1601 (amber digits)
Overall size (W x H x D):	5.25' x 1.6' x 2.8" (160cm x 48.9cm x 7.1cm)
Weight:	20 lbs (9.1 kg)
Digit Sizes:	13" (33 cm)
Power:	120/240 VAC, autosensing

Colorado Time Systems began as an aquatic timing and scoring company and we remain true to our roots in aquatic sports with specialized systems for swimming, diving, synchronized swimming and water polo. Aquatic facilities have the most corrosive environment for any equipment, and we have designed our entire product line taking harsh environments into consideration. You can count on us for consistent performance and superior product engineering.
